Exelsys HCM Simplifying Human Capital Management

Exelsys provides today's HR professionals with the necessary tools to automate, streamline and centralise employee information and processes across all departments and, with multicurrency and multilingual facilities, connect employees across all geographical territories.

Powerful analytical tools generate real-time reports and graphics, which can be diced and sliced to boost business understanding of key staff issues and form a robust platform for strategic planning – ensuring your company maximises its investment in its greatest asset – its people

"Exelsys HCM has diminished administrative work and released time and energy for the HR Department to focus on strategic initiatives such as personnel development." George Ballis, HR Manager, Leaseplan Greece

Revolutionise

How you manage employees and boost business efficiency with **Exelsys HR software**

The Exelsys advantage at a glance:

- Employee Information
- Online recruitment and applicant tracking
- Training and Development
- Leave of Absence
- Organisational Structures and Positions
- Appraisals and Goals
- Employee Expenses
- Business Intelligence
- Alerts and Notifications
- Self-Service

"Exelsys is a powerful tool for our client recruitment business. It acts as a robust database of CVs, with strong search capabilities and has helped streamline our procedures adding real value to the organization." Phryni Yakoumetti, Senior Manager; Performance Improvement Consulting, PwC Cyprus

Effective goal setting, combined with a method to regularly track progress and identify obstacles, contributes to success and bottom line results.

Automate Processes

Appraisals and Goals Management

Establish on-line staff appraisals, using different appraisal templates for each group of employees. A simple interface is used to define appraisal layout, the competencies to be included, the rating scale and questions to be included. Set goals for your employees, either personal or aligned with pre-defined corporate goals and allow managers to track progress on a regular and ongoing basis.

Empower employees with easy-to- use Self-Service access

Available, anywhere, any time and on any device, Exelsys is accessible at the touch of a button to all designated staff. The intuitive, MS Outlook style dashboards, can be configured according to different user needs, roles and levels of responsibility. With simple and advanced filtering capabilities finding information couldn't be easier exporting it to Excel, Word or pdf is a zee. The integrated document management system also enables any number of documents to be associated with an Employee or any other record within the solution.
